ACT® College Score Reporting Service Layout

EFFECTIVE: APRIL 1, 2025

This document is designed to assist with the interpretation of electronic student record data reports from the ACT College Score Reporting Service. Each field in the CSV file will include double quote text qualifiers: "value". The file name format includes the data source, organization name, and date/time stamp such as: ACT-SAMPLE-COLLEGE-09132020-204011.csv.

Note: Files may include records for test events more than five years ago. Given the age of these records, ACT recommends that this information only be used for verification purposes. The results may not be indicative of current abilities. In addition, contact information may be outdated and some test details may be omitted due to changes in the test. If you have questions about this information, please contact Encoura Member Support: Email: support@encoura.org Phone: (800)862-7759 Help Center: help.encoura.org

New & Updated Content

As announced, the ACT Science section will become optional beginning with the April 2025 test. The data file remains largely unchanged, but there is one new field and new values being used as highlighted below.

For most institutions technical updates will be unnecessary. The field names and location of most commonly used ACT data remain unchanged (composite and/or section scores, etc.). The changes highlighted in the file are focused on how the Composite scores are calculated either using four sections (ERMS- English, Reading, Math, Science) or three sections (ERM - English Reading, Math). You'll find the following minor updates to the data file:

o Score Type (Single_HighTest): new values = Single_Full_ERM, Single_Full_ERMS, Highest_Full_ERM, or Highest_Full_ERMS indicating the scoring formula used for the Composite score.

o Superscore Composite Type (Sup_Comp_Type) New field will indicate the scoring formula that was used for superscore composite calculation. Values = ERM, ERMS

Composite scores calculated with ERM or ERMS formula are comparable and do not require crosswalk.
